

## ABBA Dream Wall

### **Introducing ABBA's Dream Wall:**

ABBA is committed to bringing people and organizations together for the good of the community. When the Lord gave us our new space, he gave one of the team this word concerning its use: "It is to be a strategy center, a glory center, where dreams and visions are called into reality, where the strategy comes out of the gifts and callings I have placed within the people who will gather there. There will be a dream wall where people can post their dreams and visions for the city. Prophetic prayer teams will pray over the dreams and visions and call them into reality. There will be creative discussions and spiritual insight into how the dreams and visions relate and fit together. People with dreams will meet people with know-how and tactical ability to make dreams come true."

Check our Facebook Page regularly to see the newly posted dreams and to watch dreams come true. We invite you to participate on the page. You are welcome to comment on and express your creative thoughts on the posted dreams. We would especially love for you to pray for the dreams on our wall. You may have a dream of your own you would like to submit.

### **To submit your dream:**

Write your dream succinctly in a sentence or two (our space is limited.) We choose dreams that are for the good of the community (as opposed to personal dreams). The dreams need to be specific, so it is clear when the answer comes.

**Submit your dream to [thana@abbaconnect.net](mailto:thana@abbaconnect.net).** It is helpful to include a website or social media site to refer people where you can give more information and a contact person who respond to questions or ideas.

Prayer teams will pray over your dream. We hope our readers will pray for one another's dreams as well. When the dream comes true, we'll post your testimony. Our larger purpose is to give God the glory and encourage people that God cares about their dreams and that he answers prayer.

The ABBA staff will determine which dreams are posted and how long they will remain on our wall. That determination will be based on such factors as continued relevance and available wall space.
